

Date of birth: 26/08/1996 Address: Avenue de la Sallaz 29 1010 Lausanne – Switzerland Email: fabien.giauque@unil.ch Phone number: +4178.944.26.08 Nationality: Switzerland

PROFILE

I am currently writing my thesis on media coverage of climate change. Along this, I am working as a research assistant for Professor Jürgen Maurer.

Thanks to my professional experiences and my university career, I have been able to acquire diverse skills in terms of communication, teamwork and administrative management. In addition to these, my associative activities have also enabled me to develop a strong social and relational intelligence and a good stress management. Finally, my experience abroad helped me to improve my ability to adapt to new environments.

I am a calm, curious, autonomous and rigorous person. I enjoy working with others and discovering new ways of operating. I have good writing skills both in French and English.

LANGUAGES

French: mother tongue
